1967

The Rail Passengers Association is the national organization speaking for nearly 40 million users of passenger trains and rail transit in the US.

Our mission is to equip individual citizens- advocates with the knowledge and data they need to educate elected and appointed officials as well as the general public about intercity passenger rail's role in a 21st century multi-modal transportation network

Established in 1967, The Rail Passengers Association's vision brings passengers together to create 'A Connected America'

**Proposed National Grid-and-Gateway
Passenger Train Network**

- New passenger train routes.
- Existing passenger train routes.
- Service suspended indefinitely.

Primary Metropolitan Statistical Areas and Consolidated Metropolitan Statistical areas (includes non PMSA State Capitals)
Motorcoach service (not shown) can connect PMSA's without rail service to the national rail system.
