

Candidate Statements for 2020 Pennsylvania Council Representative

Candidate: Peri Jude Radevic

Candidate Residence: New Cumberland

Candidate Status: New Candidate

Why are you interested in serving in a NARP/RPA Leadership Position?

NARP/RPA is an important voice in Congress and locally to support and improve rail as a means of transportation. I want to add my skills and experience and financial support to the Council. Nothing is more critical than to maintain and improve transportation for America.

If elected to a Council position, what are the primary goals you personally would pursue?

I would attend all meetings. I would participate in all calls to action by NARP/RPA. I would encourage our local membership to do the same. I would continue to reach out to Pennsylvania congressional members to let them know how critical rail transit is to our state.

What is your passenger rail advocacy experience?

I currently contact my congressman when NARP/RPA issues calls to action. I take Amtrak across Pennsylvania and the country for business meetings.
